# Show-InstallationPrompt

Displays a custom installation prompt with the toolkit branding and optional buttons.

Any combination of Left, Middle or Right buttons can be displayed. The return value of the button clicked by the user is the button text specified.

Example 1: Show-ADTInstallationPrompt -Title 'Funny Prompt' -Message 'How are you feeling today?' -ButtonRightText 'Good' -ButtonLeftText 'Bad' -ButtonMiddleText 'Indifferent'

Example 2: Show-ADTInstallationPrompt -Message 'Do you want to proceed with the installation?' -ButtonRightText 'Yes' -ButtonLeftText 'No'
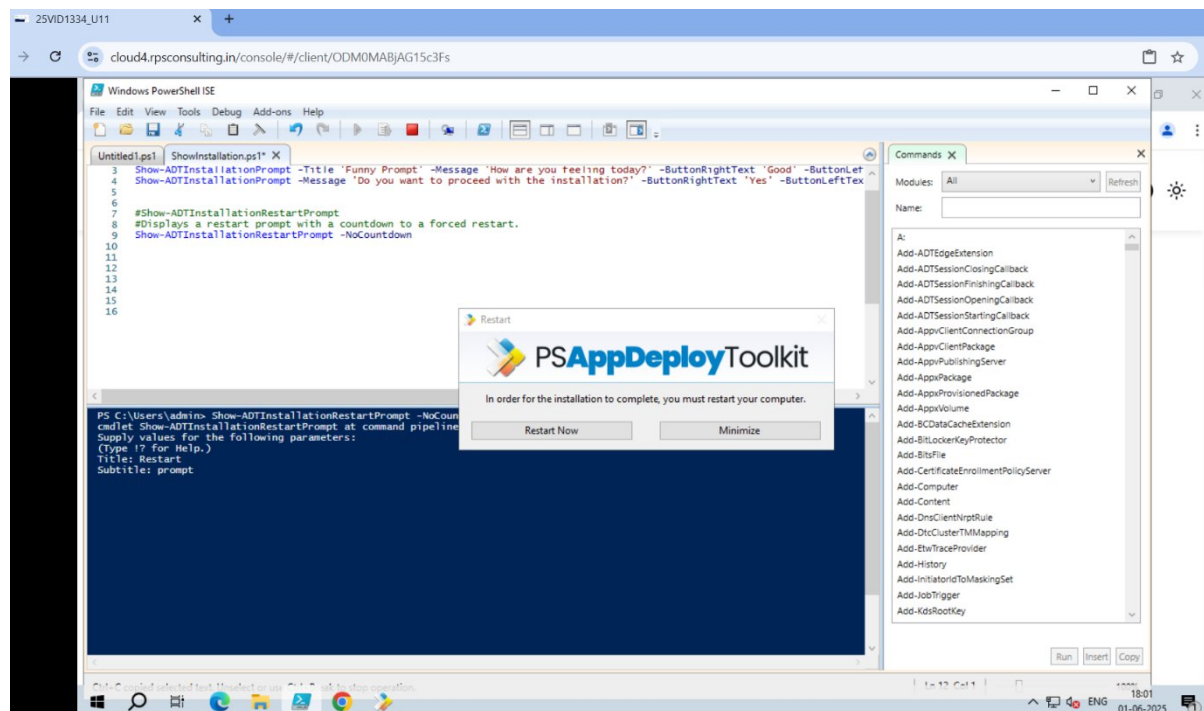

Show-InstallationRestartPrompt

Displays a restart prompt with a countdown to a forced restart.

The Prompt can be customized with a title, countdown duration, and whether it should be topmost.

It also support silent mode where restart can be triggered without user interaction.

Example: Show-ADTInstallationRestartPrompt -NoCountdown

Show-InstallationProgress

Displays a progress dialog in a separate thread with an updateable custom message.

Create a WPF window in a separate thread to display a marquee style progress ellipse with a custom message that can be updated.

The status message supports line breaks.

The first time this function is called in a script, it will display a balloon tip notification to indicate that the installation has started

Example 1: Show-InstallationProgress

      Uses the default status message from the XML configuration file.

Example 2: Show-InstallationProgress -StatusMessage 'Installation in Progress...'

Show-InstallationWelcome

Show a welcome dialog prompting the user with information about the installation and actions to be performed before the installation can begin.

Example 1: Show-InstallationWelcome -CloseApps 'iexplore,winword,excel'

Prompt the user to close Internet Explorer, Word and Excel.

Example 2: Show-InstallationWelcome -CloseApps 'winword,excel' -Silent

Close Word and Excel without prompting the user.

Show-DialogBox

Display a custom dialog box with optional title, buttons, icon and timeout.

Show-InstallationPrompt is recommended over this function as it provides more customization and uses consistent branding with the other UI components.

Example: Show-ADTDialogBox -Title 'Installed Complete' -Text 'Installation has completed. Please click OK and restart your computer.' -Icon 'Information'

Show-BalloonTip

Displays a balloon tip notification in the system tray.

It shows a **temporary pop-up message** (balloon tip) near the system tray, useful for:

- Status alerts (e.g., "Update complete")

- Warnings or errors

- Notifications during script execution

Example 1: Show-BalloonTip -BalloonTipText 'Installation Started' -BalloonTipTitle 'Application Name'

Examole 2: Show-BalloonTip -BalloonTipIcon 'Info' -BalloonTipText 'Installation Started' -BalloonTipTitle 'Application Name' -BalloonTipTime 1000
